

# The Embarrassed Egg and Osmosis

**Hypo** molecules **enter** and turn the egg into a chunky HIPPO

Vinegar Solution

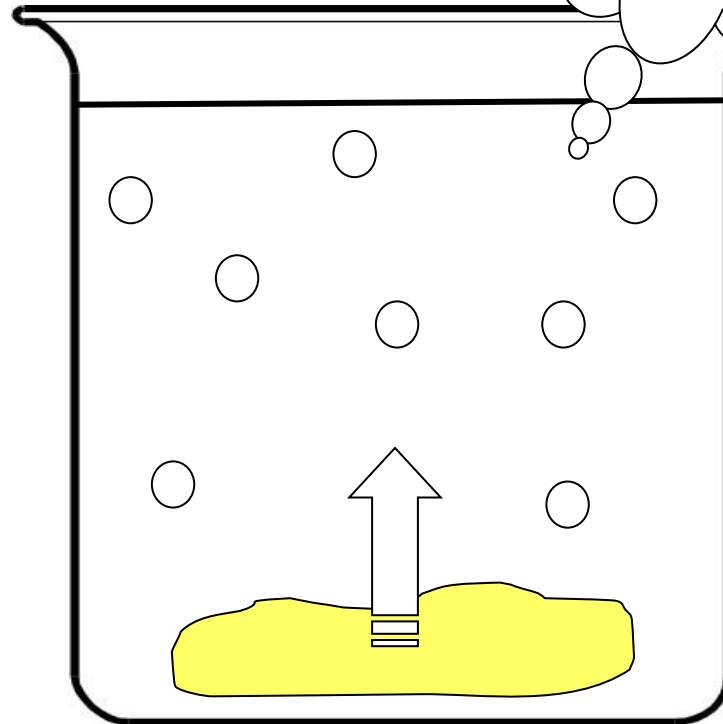

Hypotonic

Corn Syrup Solution

Hypertonic

**Hyper** molecules **go out** to play.

Osmosis: Water moves from an area of high-water concentration to an area of low water concentration.

Draw small water molecules  $\circ$  to show where the highest concentration of water should be in each container. Sugar molecules have already been added to the corn syrup.
